NEWCHWANG. (From N. C. Daily News Correspondent.)

The weather is getting very cold, but the thermometer is not lower than it was about the same period last year, and unless a sudden change takes place it is hoped there will not be any dangerous ice in the river for the next few days. Several steamors and some more salling vessels are still expected to lead for the South, and natives are anxious to ship away the new peas, which are plantiful a little distance up the river, and cheaper than they have been for some time. We have not heard that a gunboat is to be stationed here for the winter. although there was a talk that the Merlin | BLACK SEA PORTS, ALEXANDRIA, was to pay us another visit. It would be rather late to prepare a dock now, even if a gunboat were ordered to take up winter quartors. No more rumours about a railway to Port Arthur, Shan Hai Kwan, Moukdon or any other place, and we may look upon all such schemes as given up for many years. Telegrams are rather problematical advantages at times and it is said that the Chinese Government just now arrogates for its exclusive use the line between Tientsin and the south, but that an 'Urgent' message can be forwarded as before on payment of treble the ordinary cost. When the necessity arises for extra payment-i.e., when the Government thinks proper to impose the extra tax, the public have a right to be informed, as it may be presumed that telegraphic communication is generally looked upon as a matter of 'urgency and it is not expected that a telegram will take as long to reach its destination as an ordinary letter by post. Now that there s so much correspondence anent Conventions, it would be well that, if the Government can at any time exclude the forwarding of messages by the public, the latter should be warned at once that communications shall be sent if marked 'Urgent,' mogennant the extra fee. Anyhow the Government would be in the position of increasing the dividends of the line at its own sweet will, but to keep back messages ad libitum makes telegraphing a most unreliable means of communication. In case of diplomatic disturbance between the Chinese Government and any other Power, the chances are that all the other nations will suffer through the exclusive right that may be arrogated. Such a misfortune cannot perhaps be provided against.

PEKING. (From the Chinese Times.)

H.E. Herr von Brandt is expected here about the 15th, and when he arrives Baron von Ketteler leaves for Europe.

The members of the Italian Legation are now established, and soon we shall be able to see the colours of Italy floating in the breeze, together with the other pavillons. On the 28th ult. we had half a gale of bitterly cold wind, the first really cold | with Steamers from Shanghai and Japan weather of the season, and in the face of it | Ports, and at Vancouver with Pacific Coast an intropid globe-trotter set out for the Points, by the regular Steamers of the Great Wall,

and severe winter. Notwithstanding this very inclement weather and the time of the year, two other globe-trotters set out for the Great Wall, proving conclusively that this one of the wonders of the world has not yet lost its attractions, although one has to rough it very much to get there, and also that this year there is the great counterattraction in the way of the Eiffel Tower,

Three gentlemen from one of the Legations set out for the Great Wall the day before the snowstorm, but it was so bitterly cold that they 'right about turned' at Nankow and made what one can hardly call 'the best of their way 'back again,

OHI-NAN-FU.

2nd Nov.

The chief literary examiner enjoyed him self for several weeks, and left over a week ago for his duties in Peking. The military examination is now on hand with something over 1,000 to be examined. The Governor turned the chief control over to the General from Yen-chou-fu and the

Provincial Judger The Governor is still busy with his Yel. low River. The Dutchmen took a trip down to the mouth of the river, and on their return once more consulted with His Excellency. A few days after they saw the gap at Chang-c'hiu nearly closed, i again became a gap from the strong pressure of the waters. This makes the second or third attempt to close it which has

subsequently failed. One of the missionaries, the Rev. M. Chalfant, who has just visited the district of Chi-yang, gives a melancholy picture of the condition of the people, the majority of those whose homes were near the river being crowded to ether on the river embankment. In a few months the little grain they n w have will be gone, and oh, the outlook in the cold winter!

The Governor is gaining for himself good reputation for his compassion to the distressed. He seems to be exerting himself in that direction just now. Food relief is to be given for some three months in the cast and west suburbs of this city, and some 10 li north of the city. He has also issued various proclamations for the information of the people, and containing some fine sentences.

South of here there has been and is stil quite an epidemic, much like choicia Hardly a village but has several coffins borne out each day to find rest in some grave. The epidemic has not yet reached the city, and we all hope we may be spared the calamity of last year. - N. O. Daily News correspondent.

THE CHINA REVIEW.

I'HIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of Notes and Queries on China and Japan, has reached its Eighteenth Volume. The Review discusses those topics which are uppermost in the minds of students of the Far East' and about which every intelligent person con-nected with China or Japan is desirous of acquiring trustworthy information. It in-Cludes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and

the Magazine would be mademore generally usoful,-The Review department received special attention, and endeavours are made to present a caroful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to Editor, China Review, care of China Mail Office.

Descriptive notes of Travel by well-known

writers. It was thought that by extending

the scope of the Review in this direction,

The Notes and Queries are still continued, and form an important means of obtaining from and diffusing among students knowledge on obscure points: The Correspondents' column also affords

farther and greater facilities for the interchange of views and discussion of various Original contributions in Chinese, Latin, or any of the Modern Languages are recoived. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers. CHIPMASTERS and ENGINEERS are Eitel, Bretschneider, and Hirth, Professor respectfully informed that, if upon Legge, and Messre Balfour, Watters, Stent, their arrival in this Harbour, NONE of Phillips, MacIntyre, Groot, Jamieson, the Company's FOREMEN should be at Faber, Kopsch, Parker, Playfair, Giles,

mastery of their subject. The Subscription is fixed at \$6.50 per. annum, postage included - payable in adsigned is requested, when immediate steps vance. Orders for binding volumes will be promptly attended to: Address. Manager, China Mail Office."

> OPINIONS OF THE PRESS. 'All our learned societies should subscribe to this scholarly and enterprising Re. view. - Northern Christian Adrocate (U.S.) The China Review * * * has an excellent table of contents. - Celestial Empire. The Publication always contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not

advantageous comparison, with preceding numbers.'-- Celestial Empire. This number contains several articles of interest and value. - North-China Herald. 'The China Review for September-October fully maintains the high standard of excellence which characterises that publiation, and altogether forms a very interesting and readable number. Moteorologists will find an interesting and valuable contribution by Dr. Fritsche. BOARD by the Month, Day, or Single on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russun Observatory at Peking, from 1841 to 1880. "Notes on the Durch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries tre as usual very interesting."-North-China

Daily Neics. 'A substantial and reliable Review which all students of China and the Chinese would do well to patronice. - Chrysanthemiun. The November December number of the China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herbert A. Giles on "The New Testament in Chiacce? treats of a question that must necessarily be of great importance in the eyes of all missionaries. Mr K. H. Parker's "Short Journeys in Szechuen" are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. (Next to the New Oriental Bank,) A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo

and Java" might appropriately have been

placed under a separate heading, complete

the number,'-H,K. Daily Press,

Trubner's Oriental Record contains the following notice of the China Review:--The present publication, judging by the TS PUBLISHED to suit the Departure number now before us, is intended to various Reports of Courts and Meetings, tention that has been bestowed of late years and all other nows, are given in full as upon the investigation of Chinese literature, antiquities, and social developments, to say The Overland China Mail, by the con- nothing of linguistic studies, has led to the venience of its form and the accuracy and accumulation of important stores of informfulness of its reports, has long been popular ation, rendering some such channel of pubwith residents who wish to send home a licity as is now provided extremely desirweekly budget of the news of Hongkong able; and contributions of much interest; and the Far East. Circulating, as it does, may fairly be looked or from the members. among nearly all the old China hands' of the foreign consular services, the Chinese at Home and also among residents at the Customa' corps, and the missionary body, Treaty Ports and in the interior, it offers among whom a high degree of Chinese scholarship is now assiduously cultivated. The Overland China Mail will be regularly and who are severally represented in the first posted from the China Mail Office to sub- number of the Review by Papers highly scribers, on their addresses being forwarded creditable to their respective authors Some translations from Chinese novels and plays are marked by both accuracy and fresh. ness of style; and an account of the career of the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distingulahed by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that 'Notes' and 'Queries' are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary real to that which was displayed during the lifetime of its predeceasor in the field, and that the China Review
